# Breast Photobiomodulation (PBM) Irradiator

## Specifications

<b>Power</b>	Input, 110V ~ 230V 50 ~ 60 Hz Output 23v 5A
<b>Weight</b>	Total 380g
<b>Measurements</b>	Length 283mm, Width 160mm, Thickness
<b>Operation</b>	30 or 60 minutes/ 1-3 sessions per day
<b>Light irradiation intensity</b>	Set of 8 steps
<b>Irradiation applied range</b>	Breast, lymph nodes
<b>Wavelength spectrum</b>	Near-Infrared (850nm) and Infrared (940nm)
<b>Chip quantity</b>	368 total
<b>Frequency Type</b>	8 different modes, including frequency cycling utilizing all 7 Nogier Frequencies based on the individual's needs
<b>Pad Material</b>	Medical Optical Silicone
<b>Authorization</b>	US FDA registered, European CE certification, KC, RoHS hazardous substance safety certification
<b>Electrical Specs</b>	15 AMP 110V

## Warranty

1 Year Parts & Labor
